

ENGLISH IMMERSION IN CANADA

International Experience in Canada.

Short term: 1 to 4 months. Long Term: 1 or 2 semesters.

Every year Canada is home to new international students as they come to learn and immerse themselves in a new culture.

What to expect? Students will assist regular classes alongside other Canadians students and will interchange knowledge and traditions. Students will improve their English language skills by participating in school activities, academic researches, public speaking, and excursions to historic places, provincial parks and touristic areas.

Let us customize this international experience in Canada to your needs. Check out our programs at www.inglesentoronto.com.

SCHOOLS

The Toronto Catholic District School Board has 168 elementary schools (junior kindergarten to grade 8), 31 secondary schools (grades 9-12) and 3 combined (elementary and secondary) schools. We accept International Students from grade 1 – 12 and provide a wide array of programs to fulfill their needs.

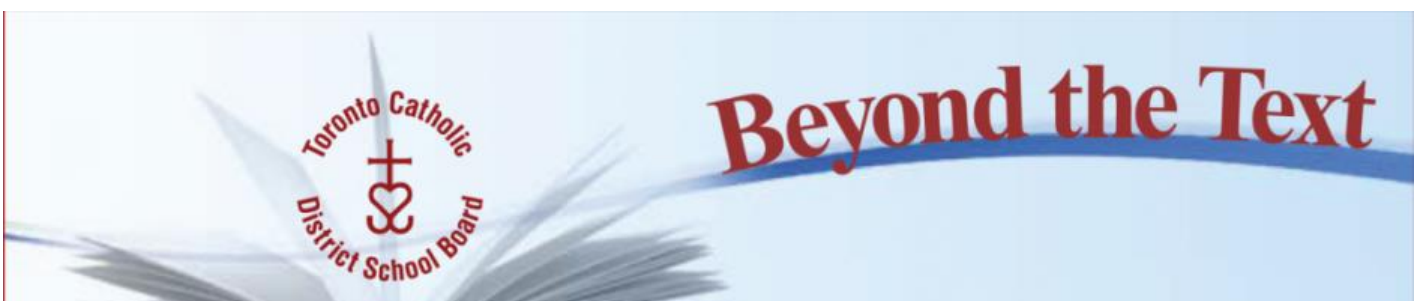

In July of 2002, Michael Power/St. Joseph received approval from the International Baccalaureate Organization in Geneva Switzerland to offer the IB Diploma Program. The school also offers two Specialist High Skills Majors (SHSM) programs in Health and Wellness and another SHSM in Sports.

Michael Power St Joseph High School and its IB programme, the Toronto Catholic District School Board, and the International Baccalaureate Organization share a common belief that developing graduates of inquiring minds, tolerance, and respect is the best way in which to create a better world.

St. Patrick Catholic Secondary School. The school facility lends itself to a great deal of diverse programming. Specialty areas include a pool, weight room, aerobics and dance studios, construction suite, culinary arts, bakery, 500-seat auditorium and two music studios with recording capability.

Our population, our modern facilities, program diversity and wide range of curricular and co-curricular activities allow us to reflect and serve the entire community and fully prepare all students for post-secondary education and careers.

CANADA

- ❖ Canada is the second largest country in the world, right after Russia.
- ❖ Canada has 10 provinces and 3 territories.
- ❖ Canada has the longest coastline of any country in the world at 243,977 km.
- ❖ Canada's capital is Ottawa.
- ❖ Canada's largest city is Toronto.

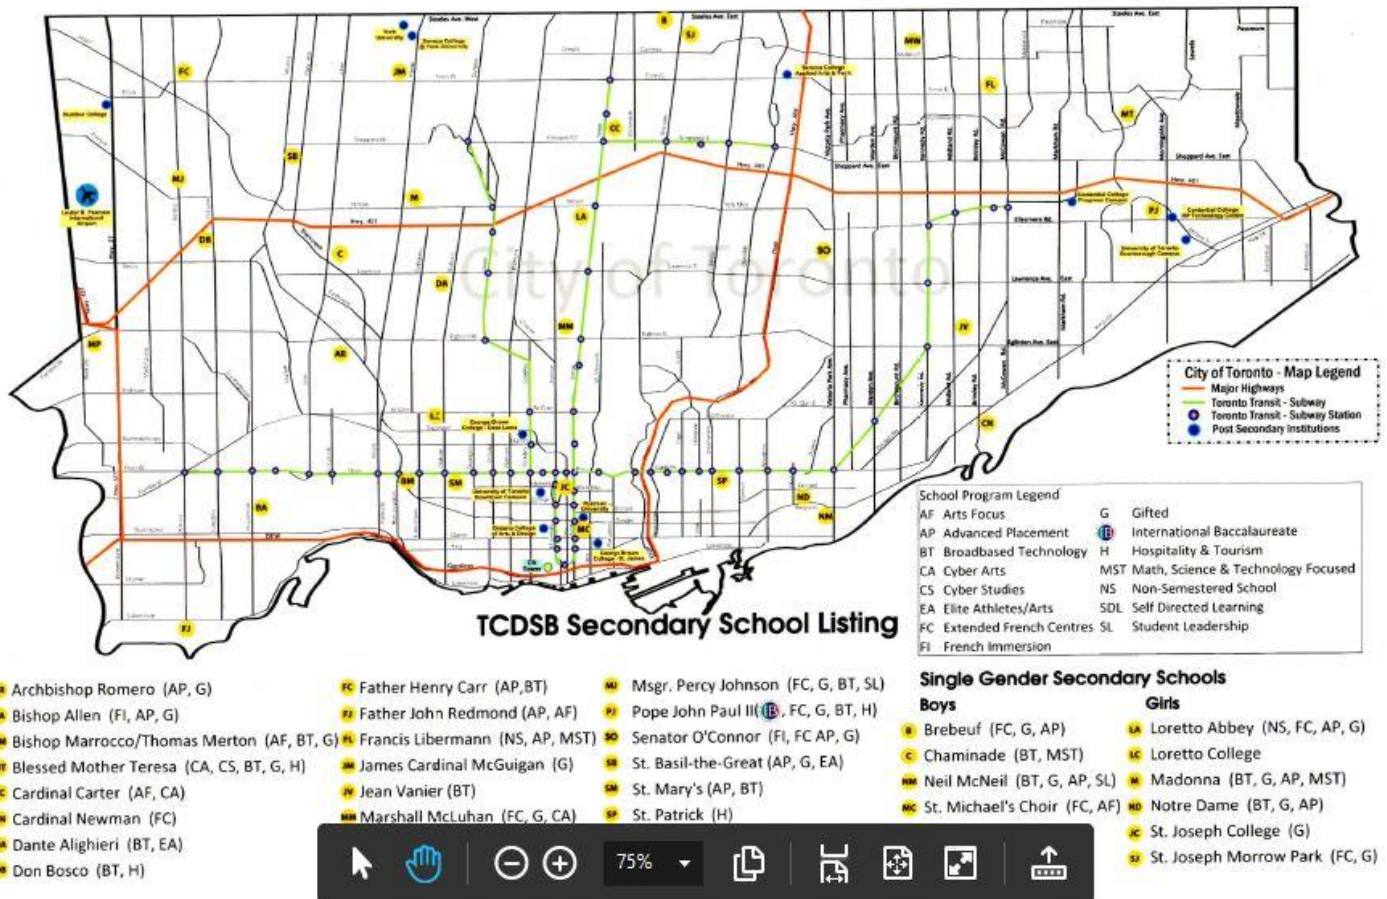

Much of Canada's success as a prosperous, modern, industrialized nation has been credited to the country's strong tradition of high-quality schools, which remain among the most respected in the world.
